PROFILE

An architect drawn to the ideas behind places. the stories they tell, the emotions they create and the way a clear vision can shape every decision that follows. At heart, a creative problem-solver: curious, collaborative and constantly learning. My ambition is to grow beyond designing individual buildings and toward leading creative direction. bringing together architecture, narrative and identity to create work that feels coherent, memorable and distinctly its own

EXPERTISE

Concept & Pre-Concept Design
Traditional & Computational Design
Masterplanning & Design Guidelines
3D Modelling & Diagramming
Drawing Production & Graphics
QA/QC & Submission Books

SOFTWARE
